The American socialists are talking of putting a presidential ticket in the field.

CONKLING's old district elected Blaine delegates to the Chicago convention.

The Daily News shows Scheffer proclivities. Consistency is a price-less jewel.

It is claimed that the wet, cool weather has entirely destroyed the chinch bugs.

JUDGE STEARNS denies that he has made a deal with McGill as insinuated by the Globe.

It was really unkind in the Journal to call attention to Bro. Canfield's previous political record.

The Duluth Tribune appears to be enjoying prosperity. It is one of the newest dailies that reach our table.

SENATOR BUCKMAN's congressional boom is being worked on the quiet. It is the still water that runs the deepest.

The Farmers' Alliance, of Meeker county, have endorsed Ig. Donnelly for governor. Donnelly's "U" is found to bring him many friends.

THERE appears to be some dissatisfaction over the inability of the machine to capture the delegation from Crow Wing county at the recent Democratic state convention.

The retirement of Lewis Baker from the management of the St. Paul Globe is hinted at by exchanges. Baker is a great newspaper man—when somebody else furnishes the cash.

Crow Wing county will not send Scheffer delegates to the state convention and the man who endeavors to put up any such scheme in this neck-of-woods will be everlastingly sat down upon.

Country politics are simmering and every now and then a candidate rises to the surface. If our Democratic brethren persist in drawing party lines in the coming county election the contest will be a very interesting one.

Our postmaster denies the insinuation that he agreed to deliver the Crow Wing delegation to Chief Doran. The fact that it was not delivered, however, will not tend to increase Michael's love for Brainerd politicians.

The Minneapolis Star thinks that "the plodding business man cannot fail to notice that there is at least one man at Brainerd who is more interested in the substantial prosperity of his town than in making political dickers, and that is C. F. Kindred."

At the National German Baptist conference at Wabash, Ind., Wednesday morning a request was read that the brethren who wore full beards trim back their mustaches so that the simulation of the holy kiss may not be unpleasant. It was stated that the church's position on the mustache question was not calculated to produce harmony.

Ames Honored.

Mayor Ames has another claim to distinction which will probably materially aid his gubernatorial boom. He has been honored with a place in the gallery of burlesque actresses and cigarette makers, whose photos are given with each bunch of almost every brand of cigarettes. The mayor's portrait is given with the brand known as "Old Judge."—Star.

What Interest Amounts to.

When the gentle, easy-going farmer who thinks there is plenty of money in the country and who is willing to agree to pay almost any rate of interest learns the difference between 3 per cent. and 12 per cent. compounded annually, he will get up and howl like an old fashioned greenbacker.

The following are the sums that \$1 would amount to in 100 years, loaned at the rates of interest mentioned and compounded annually:

At 1 per cent. .... \$2.75  
At 2 per cent. .... 19.05  
At 3 per cent. .... 34.00  
At 4 per cent. .... 64.00  
At 5 per cent. .... 118.00  
At 6 per cent. .... 205.00  
At 7 per cent. .... 370.00  
At 8 per cent. .... 660.00  
At 9 per cent. .... 1200.00  
At 10 per cent. .... 2150.00  
At 11 per cent. .... 4050.00  
At 12 per cent. .... 7620.00

But many a debtor will scratch his head as he sees these facts and sees that all the property in the state of Kansas would not pay back \$1 loaned by George Washington at 24 per cent.—Toledo News.

The Mississippi.

The water is high on all the tributaries of the upper Mississippi and good progress is being made on all the drives. New logs are running in freely. Swamps are fuller than they have been in years, and it is expected that every log will be got out. The Platte river old logs are out into the Mississippi, and Lowell &amp; West's lower Swan river drive was, at last accounts, near Aikkin. The old Rum river drive is in the Anoka boom, and the logs out of Bradbury and Tibbetts are down as far as Princeton. The only thing calculated to retard the drive above Brainerd is the dam. The water has set back further than we expected, even as far up as the lower rapids in Pine river, between which point and Brainerd there is little or no current. The lumbermen interested in logs above that point are watching anxiously what will be the result when the water which is now two or three feet over the dam falls.—Minneapolis Lumbermen.

## The Difference.

The difference in the make-up of the two state conventions that have just been held in St. Paul can be inferred from the fact that while in numbers they were about the same, yet the receipts over the bar at the Merchants hotel on Wednesday, the day of the Republican convention, are said to have been \$903, while the receipts over the same bar on the following day, the day of the Democratic convention, were \$2186.

It is no wonder that the Democratic convention put nothing in its platform against the traffic in liquor.—Duluth Tribune.

How Baking Powders are Made.

While rival companies are disputing as to what ingredients are to be found in the "best baking powder," the public will be interested in the following definition of these now indispensable articles as given by Appleton's Cyclopaedia, the acknowledged American authority.

"The best baking powders are composed of bitartrate of potash (cream of tartar) tartaric acid, carbonate of ammonia, and soda bi-carbonate, bound together by a little starch."

Thanks Dewey is the Man.

The Fergus Falls Journal says Supt. Wm. G. Gresham, of Nicollet county, is a brother of Judge Gresham, the prospective presidential nominee. There are three of the brothers living, Benjamin Q. Gresham, who lives on the old homestead in Indiana, about twelve miles from Louisville, Ky., Judge Gresham, and the Nicollet county superintendent. The latter has said to a reporter that while he should be gratified to see his brother chosen, he considers Dewey the coming man, and thinks things will shape themselves so in New York State as to make the gentleman's nomination necessary.

Republican District Convention.

A Republican district convention for the Fifth congressional district will be held at St. Cloud, on Tuesday, June 12, at 10 a. m., for the purpose of placing in nomination a Republican candidate for congress from said district. The counties are entitled to the following number of delegates:

Aitkin 2, Becker 4, Beltrami 1, Benton 2, Big Stone 3, Carlton 2, Cass 2, Clay 4, Cook 1, Crow Wing 3, Douglas 5, Grant 3, Hubbard 1, Itasca 1, Kittson 2, Lake 2, Marshall 3, Mille Lac 2, Morrison 2, Norman 3, Otter Tail 10, Polk 8, Pope 4, St. Louis 9, Stearns 5, Stevens 3, Todd 4, Traverse 2, Wadena 3, Wilkin 2. Total 99.

Dated at Fergus Falls this 15th day of May, 1888.

E. E. CORLISS, Chairman.

WILLIAM E. LEE, Secretary.

Stearns County Would Not Object.

The Moorhead News, of which G. N. Lamphere is editor, suggests the following which can be appreciated in this section:

How would this ticket do for the state campaign? For governor, Hon. Chas. A. Gilman, of St. Cloud, Stearns county; for lieutenant governor, Hon. Frank E. Searle, of St. Cloud, Stearns county; for secretary of state, Hon. W. B. Mitchell, of St. Cloud, Stearns county; for state auditor, Hon. John Cooper, of St. Cloud, Stearns county; for state treasurer, Hon. D. V. Bruckart, of St. Cloud, Stearns county; for attorney general, Hon. M. D. Taylor, of St. Cloud, Stearns county; for clerk of the supreme court, William Russell, Esq., of St. Cloud, Stearns county; for representative in congress from the Fifth district, Hon. A. Barto, of Sauk Centre, Stearns county.

Too Much Gas.

On Friday evening last, about eight o'clock, a terrible gas explosion took place in the basement of the First National Bank building, at St. Cloud, and the interior of the bank was badly wrecked, and the thick glass of the front and many fragments of furniture were blown across St. German street, smashing windows and slightly injuring people on the sidewalk and street. The force of the explosion was confined to the front of the building, though the walls were somewhat cracked, and bottles were broken in Spencer's drug store and many articles scattered around in Boyd's grocery store, which establishments join the bank building. The explosion was caused by a match being lighted to ascertain where the gas was leaking, but no blame is laid to Mr. Will Wing, who lit the match, as he did not apprehend any danger in so doing. The damage to the building and bank is being rapidly repaired, and business was in no way impeded.—Sentinel.

## IMPERIAL CÆSAR'S DAY REVIVED.

Sells Brothers' Hippodrome and Circus.

By reference to advertising columns it will be seen that this most popular of all the tented exhibitions will be with us at an early date. It is praiseworthy and meritorious in each of its departments, and will commend itself to everybody as a respectable, reliable and artistic exhibition. The valuable advertisements of shows in general seldom make good their promises, but with the Sells Brothers the rule is exceptional, and, although their announcements read like a tale of the "Arabian Nights," the exhibition always verifies their claims. We speak by the card, for the Sells Brothers' Show has been here before, and the impression left by it, both with the press and with the public, justifies our assertions. This year it comes to us with the important augmentation of a Roman hippodrome, presented on an immense elliptic track, on which are faithfully reproduced the chariot, standing and Roman races of Cæsar's day, in connection with the steeple chases and jockey races of modern era. Other important additions to the show are the world-famed trapper, and the world-famed trapper, Capt. A. H. Bogardus, and his four equally remarkable sons. Captain Bogardus has been designated by the Indians as "The Man Who Shoots to Kill," and has received recognition as the Wizard rifleman of the West, champion wing shot of the world and winner of 1,000 contests.

Will exhibit at Brainerd, Friday, June 15th.

THE GIANT OF MARVEL-LAND.

The Barnum-Baily Great United Shows.

It has heretofore been beyond all comprehension how an enterprise of such enormous size and expense as the Great Barnum and London unity of shows could be either moved or profitably maintained, and yet it has risen from the ashes of the great fire at Bridgeport, last November, in every way greater, grander and better than ever before, as will be magnificently demonstrated when it exhibits in Brainerd, on Thursday, August 16th. Among an innumerable array of festive sights and physical sensations, will now be found Mr. Barnum's latest and most remarkable acquisition, a whole caravan tribe of Moorish and Bedouin warriors, horsemen and athletes; Captain Paul Boyton, the life-saving and lone voyage hero, giving his most novel exhibitions in the waters of an artificial lake; Jumbo the Great, now the most ponderous scientific triumph of the age, appearing in his own hide as natural as life, and beside him his monster and amazing skeleton; the first World's Horse Fair; the only performing seals and African zebras; the amazing Royal Japanese performers; all extraordinary features, returning a good deal more than the price of admission, but to which must be added far the biggest and most valuable herd of educated elephants, two largest menageries on earth, three splendid circuses in a three rings, a monster museum of genuine prodigies, an elevated stage, and last, but not least, the grand Paris-Olympia Hippodrome, with its classic races, speeding contests, and seats for 20,000 spectators. All these, a free street parade of fabulous splendors and wild beast displays, and a host of unnamed attractions, go to perfect an exhibition, the first of its kind in all the world, and as conspicuous for originality, morality and refinement as for immensity.

## "Decoration Day."

The years that have elapsed since the close of the civil war have served to obliterate all sectional feeling, and a united and prosperous nation joins in keeping green the graves of all its beloved dead. It is in this spirit that the publisher of THE NEW YORK FAMILY STORY PAPER has had written a thrilling and pathetic romance, peculiarly appropriate to this national holiday, entitled "Faithful Leonore, or His Grave Kept Green." In the same paper will also be found a weekly instalment of the "Life and Adventures of a Showman of P. T. Barnum," written by himself, and equally interesting to the young folks as well as heads of families. These are rare literary treats, and those of our readers who are not already enjoying them will do well to obtain No. 766 of the NEW YORK FAMILY STORY PAPER of their newsdealer or send direct to the publisher, Munro's Publishing House, Nos. 24 and 26 Vandewater Street, New York, and receive the paper four months for ONE DOLLAR, postage free.

The Mississippi.

The water is high on all the tributaries of the upper Mississippi and good progress is being made on all the drives. New logs are running in freely. Swamps are fuller than they have been in years, and it is expected that every log will be got out. The Platte river old logs are out into the Mississippi, and Lowell & West's lower Swan river drive was, at last accounts, run. Atkin. The old lumber drive is in the Anoka boom, and the logs out of Bradbury and Tibbetts are down as far as Princeton. The only thing calculated to retard the drive above Brainerd is the dam. The water has set back further than we expected, even as far up as the lower rapids in Pine river, between which point and Brainerd there is little or no current. The lumbermen interested in logs above that point are watching anxiously what will be the result when the water which is now two or three feet over the dam falls.—Minneapolis Lumbermen.

The Difference.

The difference in the make-up of the two state conventions that have just been held in St. Paul can be inferred from the fact that while in numbers they were about the same, yet the receipts over the bar at the Merchants hotel on Wednesday, the day of the Republican convention, are said to have been \$903, while the receipts over the same bar on the following day, the day of the Democratic convention, were \$2,180.

It is no wonder that the Democratic convention put nothing in its platform against the traffic in liquor.—Duluth Tribune.

How Baking Powders are Made.

While rival companies are disputing as to what ingredients are to be found in the "best baking powder," the public will be interested in the following definition of these now indispensable articles as given by Appleton's Cyclopaedia, the acknowledged American authority.

"The best baking powders are composed of bitartrate of potash (cream of tartar) tartaric acid, carbonate of ammonia, and soda bi-carbonate, bound together by a little starch."

Thinks Dewey is the Man.

The Fergus Falls Journal says Supt. Wm. G. Gresham, of Nicollet county, is a brother of Judge Gresham, the prospective presidential nominee. There are three of the brothers living, Benjamin Q. Gresham, who lives on the old homestead in Indiana, about twelve miles from Louisville, Ky.; Judge Gresham, and the Nicollet county superintendent. The latter has said to a reporter that while he should be gratified to see his brother chosen, he considers Dewey the coming man, and thinks things will shape themselves so in New York State as to make the gentleman's nomination necessary.

Republican District Convention.

Stearns County Would Not Object.

The Moorhead News, of which G. N. Lamphere is editor, suggests the following which can be appreciated in this section:

How would this ticket do for the state campaign? For governor, Hon. Chas. A. Gilman, of St. Cloud, Stearns county; for lieutenant governor, Hon. Frank E. Searle, of St. Cloud, Stearns county; for secretary of state, Hon. W. B. Mitchell, of St. Cloud, Stearns county; for state auditor, Hon. Too Much Gas.

On Friday evening last, about eight o'clock, a terrible gas explosion took place in the basement of the First National Bank building, at St. Cloud, and the interior of the bank was badly wrecked, and the thick glass of the front and many fragments of furniture were blown across St. German street, smashing windows and slightly injuring people on the sidewalk and street. The force of the explosion was confined to the front of the building, though the walls were somewhat cracked, and bottles were broken in Spencer's drug store and many articles scattered around in Boyd's grocery store, which establishments join the bank building. The explosion was caused by a match being lighted to ascertain where the gas was leaking, but no blame is laid to Mr. Will Wenging, who lit the match, as he did not apprehend any danger in so doing. The damage to the building and bank is being rapidly repaired, and business was in no way impeded.—Sentinel.

IMPERIAL CAESAR'S DAY REVIVED.

Sells Brothers' Hippodrome and Circus.

By reference to advertising columns it will be seen that this most popular of all the tented exhibitions will be with us at an early date. It is praised and mentioned in each of the departments, and will commend itself to everybody as a respectable, reliable and artistic exhibition. The fulsome advertisements of shows in general, and the promises, but with the Sells Brothers the rule is exceptional, and, although their announcements read like a tale of the "Arabian Nights," the exhibition always verifies their claims. We speak by the card, for the Sells Brothers' Show has been here before, and the impression left by it, both with the press and with the public, justifies our assertions. This year it comes to us with the important augmentation of a Roman hippodrome, presented on an immense elliptic track, on which are faithfully reproduced the chariot, standing and Roman races of Caesar's day, in connection with the steeple chases and jockey races of modern era. Other important additions to the show are the world-famed trapper, hunter, scout and frontier veteran, Capt. A. H. Bogardus, and his four remarkably reliable sons. Captain Bogardus has been designated by the Indians as "The Man Who Shoots to Kill," and has received recognition as the Wizard rifleman of the West, champion wing shot of the world and winner of 1,000 contests.

Will exhibit at Brainerd, Friday, June 15th.

THE GIANT OF MARVEL-LAND.

The Barnum-Baily Great United Shows.

It has heretofore been beyond all comprehension how an enterprise of such enormous size and expense as the Great Barnum and London unity of shows could be either moved or profitably maintained, and yet it has risen from the ashes of the great fire at Bridgeport, last November, in every way greater, grander and better than ever before, as will be magnificently demonstrated when it exhibits in Brainerd, on Thursday, August 16th. Among an innumerable array of festive sights and physical sensations, will now be found Mr. Barnum's latest and most remarkable acquisition, a whole caravan tribe of Moorish and Bedonin warriors, horsemen and athletes; Captain Paul Boyton, the life-saving and lone voyage hero, giving his most novel exhibitions in the waters of an artificial lake; Jumbo the Great, now the most ponderous scientific triumph of the age, appearing in his own hide as natural as life, and beside him his monster and amazing skeleton; the first World's Horse Fair; the only performing seals and African zebras; the amazing Royal Japanese performers; all extraordinary features, returning a good deal more than the price of admission, but to which must be added far the biggest and most valuable herd of educated elephants, two largest megalopods on earth, three splendid circuses in the world, a monster museum of genuine prodigies, an elevated stage, and last, but not least, the grand Paris-Olympia Hippodrome, with its classic races, speeding contests, and seats for 20,000 spectators. All these, a free street parade of fabulous splendors and wild beast displays, and a host of unnamed attractions, go to perfect an exhibition, kind in its kind in all the world, and as conspicuous for originality, morality and refinement as for immensity.

"Decoration Day."

The years that have elapsed since the close of the civil war have served to obliterate all sectional feeling, and a united and prosperous nation joins in keeping green the graves of all its beloved dead. It is in this spirit that the publisher of The New York Family Story Paper has had written a thrilling and pathetic romance, peculiarly appropriate to this national holiday, entitled "Faithful Lenore; or His Grave Kept Green." In the same paper will also be found a weekly instalment of the "Life and Adventures as a Showman of P. T. Barnum," written by himself, and equally interesting to the young folks as well as hoards of families. These are rare literary treats, and those of our readers who are not already enjoying them will do well to obtain No. 766 of the New York Family Story Paper of their newsdealer or send direct to the publisher, Munro's Publishing House, Nos. 24 and 26 Vandewater Street, New York, and receive the paper four months for ONE DOLLAR, postage free.

The American socialists are talking of putting a presidential ticket in the field.

CONKLIN's old district elected Blaine delegates to the Chicago convention.

The Daily News shows Scheffer proclivities. Consistency is a price-less jewel.

It is claimed that the wet, cool weather has entirely destroyed the chinch bugs.

JUDGE STEARNS denies that he has made a deal with McGill as insinuated by the Globe.

It was really unkind in the Journal to call attention to Bro. Canfield's previous political record.

The Duluth Tribune appears to be enjoying prosperity. It is one of the newest dailies that reach our table.

SENATOR BUCKMAN's congressional boom is being worked on the quiet. It is the still water that runs the deepest.

The Farmers' Alliance, of Meeker county, have endorsed Ig. Donnelly for governor. Donnelly's "Q" is found to bring him many friends.

There appears to be some dissatisfaction over the inability of the machine to capture the delegation from Crow Wing county at the recent Democratic state convention.

The retirement of Lewis Baker from the management of the St. Paul Globe is hinted at by exchanges. Baker is a great newspaper man—when somebody else furnishes the cash.

Crow Wing county will not send Scheffer delegates to the state convention and the man who endeavors to put up any such scheme in this neck-of-woods will be everlastingly sat down upon.

COUNTY politics are simmering and every now and then a candidate rises to the surface. If our Democratic brethren persist in drawing party lines in the coming county election the contest will be a very interesting one.

Our postmaster denies the insinuation that he agreed to deliver the Crow Wing delegation to Chief Doran. The fact that it was not delivered, however, will not tend to increase Michael's love for Brainerd politicians.

The Minneapolis Star thinks that "the plodding business man cannot fail to notice that there is at least one man at Brainerd who is more interested in the substantial prosperity of his town than in making political dickers, and that is C. F. Kindred."

At the National German Baptist conference at Wabash, Ind., Wednesday morning a request was read that the brethren who were full beards trim back their mustaches so that the salutation of the holy kiss may not be unpleasant. It was stated that the church's position on the mustache question was not calculated to produce harmony.

Ames Honored. Mayor Ames has another claim to distinction which will probably materially aid his gubernatorial boom. He has been honored with a place in the gallery of burlesque actresses and cigarette makers, whose photos are given with each bunch of almost every brand of cigarettes. The mayor's portrait is given with the brand known as "Old Judge."—Star.

What Interest Amounts to. When the gentle, easy-going farmer who thinks there is plenty of money in the country and who is willing to agree to pay almost any rate of interest learns the difference between 3 per cent. and 12 per cent. compounded annually, he will get up and howl like an old fashioned greenbacker. The following are the sums that \$1 would amount to in 100 years, loaned at the rates of interest mentioned and compounded annually:

At 1 per cent. ....	\$2.75
At 2 per cent. ....	19.05
At 3 per cent. ....	340.00
At 4 per cent. ....	13,809.00
At 5 per cent. ....	84,675.00
At 6 per cent. ....	1,174,405.00
At 7 per cent. ....	15,145,207.00
At 8 per cent. ....	255,179,494.00
At 9 per cent. ....	4,000,000,000.00
At 10 per cent. ....	10,000,000,000.00

At 50 per cent. it would eat up the world.

But many a debtor will scratch his head as he sees these facts and sees that all the property in the state of Kansas would not pay back \$1 loaned by George Washington at 24 per cent. —Toledo News.

By reference to advertising columns it will be seen that this most popular of all the tented exhibitions will be with us at an early date. It is praiseworthy and meritorious in each of its departments, and will commend itself to everybody as a respectable, reliable and artistic exhibition. The fulsome advertisements of shows in general seldom make good their promises, but with the Sells Brothers the rule is exceptional, and although their announcements read like a tale of the "Arabian Nights," the exhibition always verifies their claims. We speak by the card, for the Sells Brothers Show has been here before, and the impression left by it, both with the press and with the public, justifies our assertions. This year it comes to us with the important augmentation of a Roman hippodrome, presented on an immense elliptic track, on which are faithfully reproduced the chariot, standing and Roman games of Caesar's day, in connection with the steed races and jockey races of the modern era. Other important additions to the show are the world-famed trapper, hunter, scout and frontier veteran, Capt. H. Bogardus, and his four equally remarkable sons. Captain Bogardus has been designated by the Indians as "The Man Who Shoots to Kill," and has general recognition as the Wizard rider of the West, a champion wing shot of the world and winner of 1,000 contests.

Will exhibit at Brainerd, Friday, June 15th.

### THE GIANT OF MARVEL-LAND.

The Barnum-Baily Great United Shows.

It has heretofore been beyond all comprehension how an enterprise of such enormous size and expense as the Great Barnum and London mints of shows could be either moved or profitably maintained, and yet it has risen from the ashes of the great fire at Bridgeport, last November, in every way greater, grander and better than ever before, as will be magnificently demonstrated when it exhibits in Brainerd, on Thursday, August 16th. Among an innumerable array of festive sights and physical sensations, will now be found Mr. Barnum's latest and most remarkable acquisition, a whole caravan tribe of Moorish and Bedouin warriors, horsemen and athletes; Captain Paul Boyton, the life-saving and lone voyage hero, giving his most novel exhibitions in the waters of an artificial lake; Jun-bo the Great, now the most ponderous scientific triumph of the age, appearing in his own hide as natural as life, and beside him his monster and amazing skeleton; the first World's Horse Fair; the only performing seals and African zebras; the amazing Royal Japanese performers; all extraordinary features, returning a good deal more than the price of admission, but to which must be added far the biggest and most valuable herd of educated elephants, two largest megaloties on earth, three splendid circuses in three rings, a monster museum of genuine prodigies, an elevated stage, and last, but not least, the grand Paris-Olympic Hippodrome, with its classic races, speeding contests, and seats for 20,000 spectators. All these, a free street parade of fabulous splendors and wild beast displays, and a host of unnamed attractions, go to perfect an exhibition, the first of its kind in all the world, and as conspicuous for originality, morality and refinement as for immensity.

### "Decoration Day."

The years that have elapsed since the close of the civil war have served to obliterate all sectional feeling, and a united and prosperous nation joins in keeping green the graves of all its beloved dead. It is in this spirit that the publisher of The New York Family Story Paper has had written a thrilling and pathetic romance, peculiarly appropriate to this national holiday, entitled "Faithful Leonore; or His Grave Kept Green." In the same paper will also be found a weekly instalment of the "Life and Adventures of a Showman of P. T. Barnum," written by himself, and equally interesting to the young folks as well as heads of families. These are rare literary treats, and those of our readers who are not already enjoying them will do well to obtain No. 706 of the New York Family Story Paper of their newsdealer or send direct to the publisher, Munro's Publishing House, Nos. 24 and 26 Vandewater Street, New York, and receive the paper four months for ONE DOLLAR, postage free.

Wax tapers burne on the marble table and the steam had ceased from the pint of new milk in its little boiler, the students sat satchels on their knees opposite. He saw lights, glimmers and many persons moving about, chairs scattered any how in a fashion that would have scandalized Mrs. Microbe, or the professor either, as he turned up the paper, I made the following: "Professor Ebenezer Microbe, the distinguished scientist, who has been attending some time in this city, returned home this morning, finding that the climate of the south did not agree with him."<sup>2</sup> Catharine Cole in New Orleans Picayune.

**An Exhibition of Vanity.**  
The most glaring exhibition of human vanity that I ever saw was at a young man as he stood admiring the reflection of his well dressed figure in the glass of a mirror. The mirror stood in front of an undertaking establishment, and, being heavily draped on the inside, it made a first rate mirror. There he stood for several minutes gazing at his reflection, admiring his head, his shoulders, his arms, his legs, in an admiring way from every side, as unconcerned as if he had been standing in front of a pier glass instead of a carriage for the dead. And this was at a time when the man was deaf and dumb, and his face was really reflected in one side of it.—*Buffalo News.*

In the days of my youth we had a debating society and one of the questions was, "Which is of most benefit to man, the animal or the vegetable kingdom?" The leader on the vegetable side argued that since all flesh is corruptible, there could be no animals within the vegetable kingdom, ergo, the animal kingdom was by far the most useful to man aside from ministering directly to his wants, it also sustained the human animal that was useful to him. In short, he claimed the whole earth was for the animal kingdom without exception to stand on.—Farm life.

The Way They do it at Duluth. The Duluth Herald says: You can just bet they are mad, and Condon, the manager, is one of the reddest and maddest of the whole crowd. The cause of all this wrath is a late order of the fire commissioners ordering the demolition of all large billboards within the fire limits, and prohibiting the erection of any more. Barnum's Sells' circuses are expected here shortly. Barnum has already put up his paper and Sells' man is here to-day to put up theirs, and the one has to come down, and the other can't go up. Capt. McLaughan said that the commissioners had about made up their minds to stop all this fooling with fire limits, and that in future no more one horse peanut stands, billboards, lemon ade hotels, etc., would be allowed. This is a step in the right direction, and the commissioners are only doing their duty.

Look Greeley's Advice.  
Last Saturday afternoon the passenger conductor noticed a little boy about five years of age on the train at this point. Upon questioning him it was learned that he resided in Brainerd, that his name was Johnnie Mahr, and that he was on his way to the west to "grow up with the country."

He was placed in Agent Tull's charge, who telegraphed the chief of police at Brainerd to hunt up the boy's parents and he would be returned on the earliest train. The boy was given his supper and sent home on a freight train. It is likely that the child had been playing about the depot grounds and when the train started out jumped on board. His earthly possessions consisted of five cents and some marbles.—Wadena Tribune.

Drowned on the Drive.  
The body of Joe Bordelean was brought in from the Gull River Company's drive on Stony Brook Wednesday evening. Mr. Bordelean was engaged in driving for the company and had been working for them all the spring and on this fatal day the crew were pulling logs in dead water.

The unfortunate man was working at some little distance from his companions and when he slipped and fell into the water, they hurried to the spot, knowing that he could not swim, but he had gone to the bottom before they could reach him. Several of the crew who were experts diving into the pond where he was seen to disappear, but of no avail. His body was finally found by the aid of pole poles, but life was extinct, he having been in the water some twenty-five minutes.

The deceased was an unmarried man, 28 years of age, and lived on the Noka Sebie river, in this county, where he owned a farm. His brother, E. Bordelean, accompanied the remains to Noka Sebie yesterday afternoon, where the burial took place.

That Pressure.  
EDITOR DISPATCH.—We think that both the Daily News and your correspondent "G" are laboring under a misunderstanding of the ordinance relating to the Water Power Company. As we read it, there is no obligation on part of the city to erect telephone or any other communication with the pump house. It need do so only to secure more than thirty-five pounds pressure. If thirty-five pounds pressure will give water supply enough at each hydrant to extinguish a fire, no more pressure is needed, and hence no communication is necessary. We are told by the chief and the city engineer that 35 pounds pressure is all that is needed to put out any ordinary fire. Here are those portions of the ordinance which relate to the question of pressure:

Section 2 provides that said Water Power Company "shall construct and have ready for use \* \* \* a system of water works \* \* \* sufficient in capacity and power to throw from the hydrants in case of fire six streams through one inch nozzles to the height of 75 feet at one time in any part of the city \* \* \* and there shall be kept and maintained at all times, a pressure of at least thirty-five pounds to the square inch at any hydrant. Section 5 provides that said company shall, on due notice from the mayor, engineer of fire department, or other proper city official, cause the pressure in the water mains and pipes to be increased sufficiently to throw the fire streams mentioned in section two.

Now under these provisions of the ordinance, it is plain that should more than thirty-five pounds pressure be needed in case of fire, it is necessary to give the Water Company due notice to that effect, and, if notice by telephone is due notice, then the city ought certainly to keep its telephone in working order. The city is not bound to give any notice except when the six streams or some portion of them are required or needed in case of large fires. On the other hand, if the Water Power Co. does not or can not keep up the thirty-five pounds pressure called for, at all times, without notice in case of fire—that is, if the Water Company lets the pressure run down below thirty-five pounds, taking the chances of firing up and increasing the pressure in case of fire—it and not the city must provide means to notify the engineer at the pump house so that he can, if possible, give the thirty-five pounds pressure. We think the city ought to provide means to give the notice required of it, and the Water Power Co. should be compelled to keep the required pressure on; because it has agreed to do so and if it is allowed to take the chances of being able to quickly make the pressure good it will lead to much

Died of Consumption.  
PHILLIPS.—In this city, Tuesday, May 22, 1888, of consumption, Norman Phillips, son of C. C. Phillips, aged 19 years.  
The deceased was a young man respected and beloved by all his associates. The funeral ceremony took place Wednesday afternoon and was in charge of Company K, of which he was a member. At 2 o'clock the Company in full uniform started from the Armory and marched to the late residence of Mr. Phillips, where they joined the funeral procession on its way to the Second Congregational church where the ceremony was held. The remains were laid to rest in Evergreen Cemetery, the burial being conducted in military form. Corporals Bain and Simons, and Privates Conant, Closterman, Dunlap and Mayne, were the pall bearers. The family and friends have the sympathy of the community.

The Clair Patee Company.  
Commencing Tuesday evening, May 22nd, the Clair Patee Company will begin a three nights engagement at the Sleeper opera house. The company is one of the finest and best that has visited Brainerd this season. The Sioux City Times says:

The excellent quality of the performance given last evening by the Clair Patee Company insures for them a week of unequalled success, and cannot fail to crowd the Academy each night. The company, without a single exception, is one of the best and most evenly balanced of ever visited Sioux City. There is an air of dignity and refinement about each member which recommends the company to the best patronage, and raises it above the average week-standing show.

Brainerd seldom gets this high class of entertainment at such low prices. Reserved seats 50 cents; gallery 25 cents and general admission 35 cents.

Gull River Notes.  
Herbert Davis is home on the sick list.

J. Burgoyne is recovering from his recent illness.

Frank Jago does not bet on his fighting dog to any great extent since the recent combat between it and Flint's thoroughbred "Pepper."

Hugh Hall's house has a very fresh and pleasing appearance since receiving its new coat of green, but the studio looks as though it felt somewhat slighted.

W. C. T. U. L. was well attended this week. The programme was good and well carried out, and the songs by Messrs. Reed, Downs and Jago were highly appreciated.

Ship. Murphy received a telegram from Helena, Montana, stating that his Brother Jerry, who was visiting him at this place about two weeks ago, died Wednesday morning of pneumonia. He leaves two small children, his wife having died six weeks ago.

F. E. Jago is about to sever his connection with the Gull River Lumber Co., and will start in a few weeks for Washington Territory. He has been a great help here especially in our entertainments and temperance meetings. His many friends wish him success in the Puget Sound region.

DIED OF CONSUMPTION.  
On May 21, 1888, Peter Gendrew, aged 45 years, died of consumption, of which disease he has been a sufferer for 16 years, and has been confined to his bed for the last seven months. He was born in St. Luke, province of Quebec, and moved to Gull River six years ago. He was an indulgent father and a kind and loving husband. He leaves a wife and three children to mourn his loss. The wife is almost prostrate with grief, this being the seventh time that death has entered their household, having lost six children.

Too True.  
The man who only a few years ago informed his ignorant countrymen that public office was a public trust is chiefly engaged now-a-days in distributing public offices among Democratic place hunters in such a way as will help to extend his own tenure as trustee. The voice was the voice of the statesman, but the hand is the hand of the politician.—Northfield News.

The Way They do it at Duluth. The Duluth Herald says: You can just bet they are mad, and Condon, the manager, is one of the reddest and maddest of the whole crowd. The cause of all this wrath is a late order of the fire commissioners ordering the demolition of all large billboards within the fire limits, and prohibiting the erection of any more. Barnum's and Sells' circuits are expected here shortly. Barnum has already put up his paper and Sells' man is here to-day to put up theirs, and the one has to come down, and the other can't go up. Capt. McLaughlin said that the commissioners had about made up their minds to stop all this fooling with fire limits, and that in future no more one horse peanut stands, billboards, lemon ade hotels, etc., would be allowed. This is a step in the right direction, and the commissioners are only doing their duty. Brainerd in might take a lesson from

Took Greeley's Advice.

Last Saturday afternoon the passenger conductor noticed a little boy about five years of age on the train at this point. Upon questioning him it was learned that he resided in Brainerd, that his name was Johnnie Mahr, and that he was on his way to the "grow up with the country."

He was placed in Agent Tull's charge, who telegraphed the chief of police at Brainerd to hunt up the boy's parents and he would be returned on the earliest train. The boy was given his supper and sent home on a freight train. It is likely that the child had been playing about the depot grounds and when the train started out jumped on board. His earthly possessions consisted of five cents and some marbles.—Wadena Tribune.

Drowned on the Drive.

The body of Joe Bordenave was brought in from the Gull River Company's drive on Stony Brook Wednesday evening. Mr. Bordenave was engaged in driving for the company and had been working for them all the spring and on this fatal day the crew were pulling logs in dead water. The unfortunate man was working at some little distance from his companions and when he slipped and fell into the water, they hurried to the spot, knowing that he could not swim, but he had gone to the bottom before they could reach him. Several of the crew who were experts dived into the pond where he was seen to disappear, but of no avail. His body was finally found by the aid of pike poles, but life was extinct, he having been in the water some twenty-five minutes.

The deceased was an unmarried man, 25 years of age, and lived on the Noka Sebie river, in this county, where he owned a farm. His brother, E. Bordenave, accompanied the remains to Noka Sebie yesterday afternoon, where the burial took place.

That Pressure.

EDITOR DISPATCH:—We think that both the Daily News and your correspondent "G" are laboring under a misunderstanding of the ordinance relating to the Water Power Company. As we read it, there is no obligation on part of the city to erect telephone or any other communication with the pump house. It need do so only to secure more than thirty-five pounds pressure. If thirty-five pounds pressure will give water supply enough at each hydrant to extinguish a fire, no more pressure is needed, and hence no communication is necessary. We are told by the chief and the city engineer that 35 pounds pressure is all that is needed to put out any ordinary fire. Here are those portions of the ordinance which relate to the question of pressure:

Section 2 provides that said Water Power Company "shall construct and have ready for use \* \* \* a system of water works \* \* \* sufficient in capacity and power to throw from the hydrants in case of fire six streams through one inch nozzles to the height of 75 feet at one time in any part of the city \* \* \* and there shall be kept and maintained at all times, a pressure of at least thirty-five pounds to the square inch at any hydrant. Section 5 provides that said company shall, on due notice from the mayor, engineer of fire department, or other proper city official, cause the pressure in the water mains and pipes to be increased sufficiently to throw the fire streams mentioned in section two.

Now under these provisions of the ordinance, it is plain that should more than thirty-five pounds pressure be needed in case of fire, it is necessary to give the Water Power Company due notice to that effect, and if notice by telephone is due notice, then the city ought certainly to keep its telephone in working order. The city is not bound to give any notice except when the six streams or some portion of them are required or needed in case of large fires. On the other hand, if the Water Power Co. does not or can not keep up the thirty-five pounds pressure called for, at all times, without notice in case of fire—that is, if the Water Company lets the pressure run down below thirty-five pounds, taking the chances of firing up and increasing the pressure in case of fire—it and not the city must provide means to notify the engineer at the pump house so that he can, if possible, give the thirty-five pounds pressure. We think the city ought to provide means to give the notice required of it, and the Water Power Co. should be compelled to keep the required pressure on; because it has agreed to do so and if it is allowed to take the chances of being able to quickly make the pressure good it will lead to much

The deceased was a young man respected and beloved by all his associates. The funeral ceremony took place Wednesday afternoon and was in charge of Company K, of which he was a member. At 2 o'clock the Company in full uniform started from the Armory and marched to the late residence of Mr. Phillips, where they joined the funeral procession on its way to the Second Congregational church where the ceremony was held. The Clair Palace Company.

Commencing Tuesday evening, May 29th, the Clair Palace Company will begin a three nights engagement at the Sleeper opera house. The company is one of the finest and best that has visited Brainerd this season. The Sioux City Times says:

The excellent quality of the performance given last evening by the Clair Palace Company insure for them a week of unequalled success, and cannot fail to crowd the Academy each night. The company, without a single exception, is one of the best and most evenly balanced that ever visited Sioux City. There is an air of dignity and refinement about each member which recommends the company to the best patronage, and raises it above the average week-standing show.

Brainerd seldom gets this high class of entertainment at such low prices. Reserved seats 50 cents; gallery 25 cents and general admission 35 cents.

Ship. Murphy received a telegram from Helena, Montana, stating that his Brother Jerry, who was visiting him at this place about two weeks ago, died Wednesday morning of pneumonia. He leaves two small children, his wife having died six weeks ago.

F. E. Jago is about to sever his connection with the Gull River Lumber Co., and will start in a few weeks for Washington Territory. He has been a great help here especially in our entertainments and temperance meetings. His many friends wish him success in the Puget Sound region.

DIED OF CONSUMPTION.

On May 21, 1888, Peter Gendrew, aged 45 years, died of consumption, of which disease he has been a sufferer for 16 years, and has been confined to his bed for the last seven months. He was born in St. Luke, province of Quebec, and moved to Gull River six years ago. He was an indulgent father and a kind and loving husband. He leaves a wife and three children to mourn his loss. The wife is almost prostrate with grief, this being the seventh time that death has entered their household, having lost six children.

Too True.

The man who only a few years ago informed his ignorant countrymen that public office was a public trust is chiefly engaged now-a-days in distributing public offices among Democratic place hunters in such a way as will help to extend his own tenure as trustee. The voice was the voice of the statesman, but the hand is the hand of the spoilsman.—Northfield News.
